DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is confusing since there is no antecedent basis for "CMC" in the claim. It would be clearer if applicant amended CMC to read, "sodium carboxymethyl ether cellulose".

In claims 2 and 4, the Markush group is not proper. Applicant should amend it to read, "selected from the group consisting of...".

In claim 3, there is no support for "the pH buffering agent concentration."

In claim 5, there is no antecedent basis for "the NaCl concentration". It would be clearer if applicant simply claimed, "wherein the tonicity agent is NaCl at a concentration of about 75 mM to about 125 mM."
